INTERAVIA

Aerospace Review

INDEX FOR 1986

SUBJECT INDEX

AIR TRANSPORT

Pan Am switches capacity to Atlantic, Latin America: 1/12
Bloodbath at Denver? 1/12
Change ahead for SAS? 1/13
A320 order formalised: 1/13
Fuel savings from accurate weight planning: 1/13
Big twins fly the Atlantic – TWA experience with the 767: *Marc Grangier*: 1/51
Pacific a battleground for market share: *David Woolley*: 1/55
Future navigation systems – doubts on cost and organisation: *David Woolley*: 1/59
Airlines move to protect sales outlets from bias: *David Woolley*: 1/61
World traffic up in 1985, but freight plummets: 2/130
A320 makes further inroads in Australia: 2/130
ICAO beefs up Annex 17: 2/131
GPWS has proved its worth: 2/131
What technologies await the future airliner? *Pierre Condom and Mark Lambert*: 2/145
The 7J7 – Boeing's answer to the Airbus A320: *Marc Grangier*: 2/151
Market forces turn attention to interiors: *David Woolley*: 2/157
Operator's assessment of the ATR 42: *David Woolley*: 2/161
Middle East airports – facilities improve, but airspace fragmentation looms: *David Woolley*: 2/165
Germany's regional airline boom: *Peter Pletschacher*: 2/181
Cracks in 747 frames: FAA acts: 3/224
Northwest buys Republic: 3/224
Safety measures stepped up: 3/225
MD-88s for Delta: 3/225
Third World's airline profit problem: 3/226
Airlines' insurance premiums on the increase: 3/226
Aerospace planes and trans-atmospheric vehicles – recent US studies revive dormant technologies: *Bill Sweetman*: 3/305
Battle of the hushkits – all quieter on the Western front: *Paul Turk*: 3/311
Take-over fever rages on in USA: 4/344
Emergency exit problems with Concorde: 4/344
Capacity dumping to spell Atlantic disaster? 4/345
Noise determines aircraft choice for AirCal: 4/345
Dubai show report: new airline, new airways centre in the Gulf: 4/346
Airlines weigh up 150-seater technology: *Bill Sweetman and David Woolley*: 4/401
HeavyLift – a new dimension in air cargo: *Marc Grangier*: 4/407
Air traffic concern in the USA: new authority mooted: 5/468
Bermuda dimension floors privatisation plan: 5/469
US nationals increase profits: 5/469
'Pacific rim' – a driving force in long-range operations: *David Woolley*: 5/497
New types vie for long-range market: *Bill Sweetman*: 5/501
Airbus Industrie goes for capacity and range: *Pierre Condom*: 5/503
Airlines watch trans-Atlantic bookings nervously: 6/584
Fewer US regional carriers, but many survivors expand: 6/585
A blow for freedom; and then again, perhaps not: 6/585
Large airlines influence regionals' future structure: *David Woolley*: 6/597
Commuter airliners – to stretch or not to stretch? *Marc Grangier*: 6/605
Upheaval in the north-east corridor: 7/706
Profitable Cathay steps up the competitive pace: 7/706
American pushes for Atlantic share: 7/709
Wrestling with US airline mergers – is competition the victim? *Ramon L. Lopez*: 7/721
Liberalism and public service – hesitation in French air transport: *Pierre Condom*: 7/725
European wind of change runs out of puff: 8/816
Australian emerges: 8/816
Kahn: "Why should cabotage be a deadly sin?" 8/817
IATA airlines' profits fell last year: 8/817
Airline liberalisation – Europe in transition: *David Woolley*: 8/859
ATI prepares to launch new regional network: 9/942
Merger mania continues as People sells Frontier: 9/943
European airlines broaden their base: 9/943
South-East Asia's carriers ponder equipment needs: *Pierre Condom*: 9/993
USAir faces labour-cost challenge: *David Woolley*: 9/999
Change of direction on mergers? 10/1088
Leasing looms large in BA re-equipment: 10/1088
Airliner sales boom and the financiers climb aboard: *Bron Rek*: 10/1127
The world's major airlines: *David Woolley*: 10/1137
Airliner acquisitions: 1985-1986: *David Woolley*: 10/1175
Northwest: a blue-chip customer for Airbus in USA: 11/1236
Liberalisation: EEC ministers try again: 11/1236
Board urges safety measures for regionals: 11/1237
World airline industry shows uneven development, uncertain future: *David Woolley*: 11/1263
Automation in the airlines – an essential marketing tool: *David Woolley*: 11/1269
Quiet AGM highlights IATA's changing face: 12/1364
Privatisation of British Airways rolling at last: 12/1365
A320 dual sidestick system takes off: *Mark Lambert*: 12/1373
The Fokker 100 in America – through the eyes of USAir: *Nick Cook*: 12/1379
Airlines diversify with wide range of services: *David Woolley*: 12/1383

DEFENCE

Flanker prototype revealed: 1/18
French budget stresses deterrent: 1/19
F-16 reconnaissance version to be tested: 1/19
Far East air forces – who has what: 1/63
The Maritime Enforcer Mk2: *Pierre Condom*: 1/73
Lavi – advanced fighter and industrial springboard: *Brian Wanstall*: 1/77
Cheaper than any missile – the fighter gun: *Bill Sweetman*: 1/85

Multidart 68 adopted for France's HAP helicopter: 1/88
WEU report on European fighters: 2/132
New NATO IFF system by 1992? 2/132
Rafale rolled out: 2/133
AEW for all – choice in platform, potential and price: *Brian Wanstall*: 2/169
New-look F-14 and A-6 for the 1990s: *Bill Sweetman*: 2/175
US defence budget proposals for FY 1987: 3/228
Chinese export new F-7 model: 3/229
Mirage 4000 flies again: 3/229
Su-27 – Sukhoi plays its Flanker: *Bill Sweetman and Georges Lafon*: 3/275
Kinetic energy to take out tanks: *Brian Wanstall*: 3/279
Foxhound caught by RNoAF: 4/348
UK Parliament discusses RAF problems: 4/349
Japanese FY 1986 defence budget: 4/349
European fighters for the 1990s – recapturing the home market: *Pierre Condom*: 4/379
Growing need for RPVs – a place for the quick and the slow: *Brian Wanstall*: 4/385
Guns in helicopters – will existing gun systems do? *Nick Lappos*: 4/395
MBB 339C advanced cockpit, advanced capability: 5/466
The Eurofighter – a curate's egg: 5/467
LA-2000 – a Dornier stealth study: 5/467
G-induced loss of consciousness – combat aircraft pilots head for trouble. *Germain Chambost and Paul Turk*: 5/507
The MAD salty world of the naval helicopter: *Brian Wanstall*: 5/513
Orlik and Orlik-Turbo – Polish Eaglets swoop on trainer market: *Brian Wanstall*: 5/521
"Soviet Military Power, 1986": 6/578
Thoughts on El Dorado Canyon: 6/579
9G and other experiences in the F-16: *Jacques Clostermann*: 6/617
Air-launched anti-armour weapons – a new generation on the horizon: *Charles Gilson*: 6/627
Terprom looks promising: 7/700
Straws in the wind: 7/701
Fighter power for the 1990s: *Bill Sweetman, Pierre Condom and Charles Gilson*: 7/731
Can Europe meet the challenge of LHX? *Mark Lambert*: 7/741
Towards the intelligent missile – Hughes prepares for the 1990s: *Mark Lambert*: 7/747
West German 1987 budget proposals: 8/808
The MiG-29 Fulcrum comes West: 8/809
JAS39 Gripen – a Swedish solution to a multi-role need: *Brian Wanstall*: 8/867
The jet to beat the turboprops – Siai Marchetti S.211 pilot report: *Mark Lambert*: 8/875
Cheetah out of Mirage for SAAF: 9/940
No stopping the young lion: 9/941
Which way for British AEW? – GEC versus the US big three: *Brian Wanstall*: 9/967
Mirage 2000 and F-16: one pilot flies them both: *Jacques Clostermann*: 9/975
G-LOC and the right stuff: 10/1087
MiG-29 – last of the hot Red fighters? *Bill Sweetman and Georges Lafon*: 10/1119
The price of Swedish freedom: 10/1218
Osprey: a new bird for US services: 11/1242
Tail wags dog in Eurofighter radar choice: 11/1244
Eyes over EEZ – more offers than orders: *Brian Wanstall*: 11/1275.
West Germany heavily involved in international missile programs: *Peter Pletschacher*: 11/1287
Mission simulators: *Pierre Condom*: 11/1295
French 1987 defence budget – defining the affordable: 12/1358
Fly-off for ATF, farewell for F-20? 12/1360
SRAM II competition moves on: 12/1361
Changes afoot in Western air defence missile systems: *Brian Wanstall*: 12/1387
STOL technology to boost tactical airlifters: *Brian Wanstall*: 12/1394
Navstar/GPS – suppliers swarm to a major market: *Pierre Condom*: 12/1397

GENERAL AVIATION

Improved-performance Dauphin? 1/20
Turboméca-Sikorsky agreement on re-engined S-76: 1/20
The Beech F33C out of uniform: 1/20
Shrouded tail rotor for the Squirrel: 1/21
New safety measures for UK helicopters: 1/21
Learjet C-21A in the USAF: the first 30 months: 1/21
Atlantic Aviation and Page Avjet – two FBOs in focus: *Marc Grangier*: 1/91
Piper's European revival: 2/136
The Diamond II becomes the Beechjet: 2/137
Air taxis – where there are businessmen... *Marc Grangier*: 2/183
The all-digital helicopter – coming soon... *Pierre Condom*: 2/188
General aviation in the USA: no light at the end of the tunnel: 3/230
Starship I – the moment of truth: *Marc Grangier*: 3/283
Aérospatiale AS350 B1 – the mountain squirrel: *Mark Lambert*: 3/289
Liability: latest fly in the GA ointment: 4/352
Porsche's PFM3200 engine – looking for a market: *Marc Grangier*: 4/429
New light aircraft from Italy: 5/470
Million Air: the chain lengthens: 5/471
Business aviation in West Germany – still a lacklustre market: *Marc Grangier*: 5/543
MEDEVAC gets its second wind: *Marc Grangier*: 5/547
Optica Industries takes over from Edgley: 6/586
New flight safety manual from Cessna: 6/587
146 for VVIPs: 6/587
Liability – another solution: 6/587
Avanti to fly soon: *Marc Grangier*: 6/645
The first civil all-weather rescue helicopters: 6/651
Cessna develops a Citation II-1/2: 7/710
Beech Starship I certification slips a year: 7/710
The new light two-seaters – Europe on the offensive: *Marc Grangier*: 7/751
Farming and firefighting – the sky's no limit: *Brian Wanstall*: 7/755
Gulfstream IV is coming: 8/814
Cessna rethink? 8/814
Business aircraft – is the choice too wide? 8/893
GAMA deliveries disappoint: 9/950
Andalucia to be home of VTOL in Spain? 9/950
Financing purchases of business aircraft – becoming routine: *Marc Grangier*: 9/1029
Executive jets and turboprops – 1986 shop window: *Marc Grangier*: 9/1035
Regional air transport in the USA – what has happened since deregulation? *Marc Grangier*: 9/1043
Avanti rolls out: 10/1092
New Swiss amphibian proposed: 10/1093
Will Seastar's glass-composite wing meet FAR 23? *Peter Pletschacher*: 10/1183
Falcon 900: operator's analysis: *Jacques Clostermann*: 11/1303
Voljet 585 emulates the Djinn: 12/1366
1986 first half second-hand business jet sales: 12/1366
EMB-123 – revolution gives way to evolution: *Marc Grangier*: 12/1401
Challenger 601-3A – the real challenger: *Marc Grangier*: 12/1406
Garrett – from the T76 to ceramic components: *Marc Grangier*: 12/1413

SPACE

UK forms Space Centre: 1/17
Leasecraft 'uninsurable' so unaffordable: 1/17
How to power the Space Station – solar-dynamic versus photo cells: *Paul Turk*: 1/96
Brazil aims for self-sufficiency in space: *Pierre Condom*: 1/99
Germany's D1 Spacelab flight – gathering credentials for Columbus: *Peter Pletschacher*: 1/102
More data on next US metsats: 2/138
German agency backs Hermes, urges autonomy: 2/138
Hermes – luxury or necessity? *Chris Bulloch and Peter Pletschacher*: 2/191
Intelsat goes commercial – selling off the excess without selling the farm: *Helmut Muller*: 2/195
Challenger loss: how best to go on? 3/232
NASDA's new launchers – Japan outbids Europe on technology: *Chris Bulloch*: 3/299
Shuttle probe reveals astronauts' loss of confidence: 4/353
Success for SPOT, worries for Eosat: 4/353
Canada's multi-role radar satellite: *Bob Jaques*: 4/433
Ariane 4 and its competitors – 'mature' technology but plenty of power: *Chris Bulloch*: 5/551
More CNES spin-offs: 6/588
Canadian space spending: 6/589
US launcher famine looms: 6/589
China to launch US satellites? 6/589
SPOT starts business: *Chris Bulloch*: 6/673
Will SDI sink Shuttle replacement? 7/704
The Challenger accident report: 7/705
Space Station evolution – the uncertainty principle prevails: *Chris Bulloch*: 7/779
Launcher failure analyses: 8/813
Can the Soviet Proton launch Western satellites? *John Parfitt*: 8/903
Japan to go commercial after all? 9/948
No Ariane launch until 1987: 9/949
Spacehab – a move towards reality: *Chris Bulloch*: 9/1055
New US Air Force launchers: 10/1086
Astra – rising star or shooting star? *Théo Pirard*: 10/1191
Reshaping the Space Station: 11/1245
Improvements, new missions for IUS: 11/1246
Arianespace's bulging order book: 11/1246
NASA's new Shuttle manifest: 11/1246
Materials processing – back to ballistics? *Chris Bulloch*: 11/1313
Developing the US commercial space launch industry: *Ramon L. Lopez*: 11/1319
Hermes: the hesitation waltz: 12/1362
NASA breathes again, Eosat too: 12/1362
Space Station – more shake-ups and scrubdowns: *Chris Bulloch*: 12/1415

INDUSTRY

German industry proposes a ten-year plan: 1/15
Does Spain really need the A-X? 1/16
Big picture – a wide-angle break with tradition: *Bill Sweetman*: 1/110
Last chance for a real European helicopter industry – Aérospatiale's Michel Thomas talks to *Interavia*: 1/113
Allison to develop Osprey engine: 2/135
Airborne collision-avoidance systems – solutions in sight: *Pierre Condom*: 2/197
IAI moves ahead with Lavi – *Interavia* meets Moshe Keret: 2/205
EUROFAR – Europe tilts at the US windmill: *Marc Grangier*: 2/206

Hypersonic Orient Express : 3/227
Another Boeing 150-seater : 3/227
Airbus extends its family : 3/227
New interfaces in the cockpit : *Mark Lambert* : 3/295
BERP blades – key to the 200kt helicopter : *Brian Wanstall* : 3/322
Dassault and cooperation – Bruno Revellin-Falcoz, directeur-général technique of Dassault-Breguet, talks to *Interavia* : 3/325
Anglo-American agreement on ASTOVL research : 4/342
The Westland saga : Part 2 : 4/343
Pratt & Whitney Canada/MTU : a new engine : 4/343
Civil simulators – where now ? *Mark Lambert* : 4/413
How US companies are attacking production costs : *Paul Turk and Bill Sweetman* : 4/419
Germany weighs the penalties and benefits of cooperation : *Peter Pletschacher* : 4/425
Turin-Detroit air bridge : *Marc Grangier* : 4/437
Nightfox gives you a bang in the dark : *Mark Lambert* : 4/443
Cammacorp bows out after 110 DC-8 Super 70s : 5/462
Propfans and applications : agreements take off : 5/463
Italy builds anew : 5/463
Helicopters : Panther strikes : 6/581
Personnel training – from simulators to microcomputers : *Pierre Condom* : 6/657
Bonn undertakes to continue its support policy... under certain conditions : 6/663
Aeronavali – a successful relaunch : *Marc Grangier* : 6/669
Pegasus 11 : more thrust for 1990 : 7/702
Superfan for the A340 ? 7/703
Stretched 737 launched with Piedmont order : 7/703
Airports build for future traffic amid new security concern : *David Woolley* : 7/763
Secondary radar leads – monopulse points the way : *Dan Boyle* : 7/773
Brazil moves to make engines : *Pierre Condom* : 7/777
Indonesia celebrates industry's tenth birthday : 8/810
General Electric and Garrett propose new engine : 8/811
A quiet Boeing 727-200 : 8/811
Avionics in the sub-microscopic world : *John Rhea* : 8/907
New fuselage technology for the Dornier Do328 : *Peter Pletschacher* : 8/915
Civil aircraft sales : Boeing wins out : 9/944
SF 340 engine problems solved : 9/944
Question mark over the MD-89 : 9/947
Airbus Industrie sees 7,840 aircraft sales : 9/947
How does Britain spend its aerospace money ? 9/1049
The aerospace industry in Italy : 9/1066
Propfan – a victim of lower oil prices ? *Pierre Condom and Peter Pletschacher* : 10/1199
Selling and supporting in the Orient – being there is important : *Bron Rek* : 10/1205
The most integrated avionics system ever : *John Rhea* : 10/1211
Tupolev's next airliner – the Tu-204 : 11/1238
Fighting forest fires in France : 11/1240
FADEC for fighter engines : *Charles Gilson* : 11/1324
From DC-3 to DC-10, from PT6 to JT9D : all in a day's work for Bedek : *Brian Wanstall* : 11/1331
Competition and cooperation in the world market : 12/1368
Changing the guard at Dassault-Breguet : 12/1370
Boeing and McDonnell Douglas results : 12/1370
High-tech and soft furnishings – suppliers eye new aircraft interiors : *Bron Rek* : 12/1419
Forming aircraft structural components – a slow revolution : *Pierre Condom* : 12/1429

EUROPEAN AEROSPACE EQUIPMENT INDUSTRY

Part 1 : France – a country with total capability : *Pierre Condom, Jean Pellandini* : 3/251
Part 2 : Great Britain – *Nick Cook, Doug Richardson, Charles Gilson* : 4/359
Part 3 : Italy, Spain, Netherlands, Belgium, Switzerland and Greece – *Charles Gilson, Marc Grangier, Pierre Condom, Brian Wanstall* : 5/527

SHOW REPORTS

The rush to the Far East : *Pierre Condom* : 3/239
Misery among the helicopters – civil outlook continues poor : *Mark Lambert and Paul Turk* : 3/245

SPECIAL REPORTS

New challenges face West Germany's aerospace industry : *Peter Pletschacher* : 5/477
The second world of armaments – Chile and South Africa at FIDA 86 : *Mark Lambert* : 5/491
Polish aircraft industry – sizeable, successful, specialist : *Brian Wanstall* : 6/635
Headlines from Hanover : 7/717
Britain's aerospace industry : 8/825
EFA takes the stage : 8/841
RAA meeting – testing time for regionals : *David Woolley* : 8/851
Farnborough 86 : international programs dominate : *Mark Lambert and Charles Gilson* : 9/959
Japan's aerospace industry – government policy and support : *Akihiko Takao* : 9/979
The West German aircraft equipment industry : *Peter Pletschacher* : 9/1007
Europe's northern rim – small markets drive collaboration and exports : *Brian Wanstall* : 9/1017
News from Farnborough : 10/1101
NBAA 1986 – measured optimism : *Marc Grangier* : 11/1253

TECHNOLOGY

Short-field F-15 . *Bill Sweetman* : 7/791

REGULAR FEATURES

Editorials :
How hard it is to be European : *Mark Lambert* : 1/9
Trans-Atlantic cooperation – will it happen ? *Mark Lambert* : 2/127
Protectionism or competitiveness ? *Pierre Condom* : 3/221
Atlantic capacity swamp : *David Woolley* : 4/339
Cause and effect : *Mark Lambert* : 5/459
Can Panther be France's LHX ? *Mark Lambert* : 6/573
Hanover in a new air show environment : *Mark Lambert* : 7/695
A time for partnerships : *Pierre Condom* : 8/803
The dangers of cheap oil : *Pierre Condom* : 9/935
Can the USA afford a new orbiter ? *Chris Bulloch* : 10/1081
The Long March : *Pierre Condom* : 11/1229
France sticks to its defence decisions : *Pierre Condom* : 12/1353

Our correspondents report : 1/11, 2/129, 3/223, 4/341, 5/461, 6/577, 7/699, 8/807, 9/939, 10/1085, 11/1235, 12/1357

World of aerospace : 1/11, 2/129, 3/223, 4/341, 5/461, 6/577, 7/699, 8/807, 9/939, 10/1085, 11/1235, 12/1357

Airliner purchases : 1/13, 2/131, 3/225, 4/345, 5/468, 6/585, 7/709, 8/817, 9/943, 10/1089, 11/1237, 12/1365

People & Calendar : 1/22, 2/140, 3/234, 4/354, 5/472, 6/590, 7/712, 8/818, 9/952, 10/1094, 11/1247, 12/1372

Technology, products, markets : 1/105, 2/201, 3/317, 4/439, 5/557, 6/677, 7/785, 8/915, 9/1059, 10/1215, 11/1335, 12/1423

Letters & Books : 5/472, 7/793, 8/923, 9/1067

SUPPLEMENTS

Helicopters – the way ahead

One man and 3,000 million operations a second : preparing for the LHX cockpit : *Mark Lambert* : 1/27
The helicopter and the other VTOL designs : an *Interavia* reader's manual : *Nick Lappos* : 1/33
How safe is the helicopter ? The UK's CAA provides some of the answers : 1/37
The business helicopter in the airways system : *Capt David Warren* : 1/39
Towards helicopter blind landings : *Mark Lambert* : 1/43
World helicopter census : *Marc Grangier* : 1/45

Business Aviation

The world's fleet of business aircraft – a statistical guide : *Marc Grangier* : 7/7
Number-crunching nine company aircraft : *Darrol Stinton* : 7/13
Navigation and flight management – integration is gaining ground : *Pierre Condom* : 7/19
The price of used aircraft – an analysis of their residual values : *Darwin and Bernie McGowan* : 7/23
Aircraft completion and refurbishment – the new trends : *Marc Grangier* : 7/29
Business aircraft costs – some concrete examples : *Marc Grangier* : 7/33
Pilot training – a plea for lower costs : 7/39
New developments in engines for business aircraft : 7/40

AUTHORS

Boyle, Dan
Secondary radar leads – monopulse points the way : 7/773

Bulloch, Chris
Hermes – luxury or necessity ? 2/191
NASDA's new launchers – Japan outbids Europe on technology : 3/299
Ariane 4 and its competitors – 'mature' technology but plenty of power : 5/551
SPOT starts business : 6/673
Space Station evolution – the uncertainty principle prevails : 7/779
Spacehab – a move towards reality : 9/1055
Editorial : Can the USA afford a new orbiter ? 10/1081
Materials processing – back to ballistics ? : 11/1313
Space Station – more shake-ups and scrub-downs : 12/1415

Chambost, Germain
G-induced loss of consciousness – combat aircraft pilots head for trouble : 5/507

Clostermann, Jacques
Operator's assessment of the ATR 42 : 2/161
9G and other experiences in the F-16 : 6/617
Mirage 2000 and F-16 : one pilot flies them both : 9/975
Falcon 900 : operator's analysis : 11/1303

Condom, Pierre
The Maritime Enforcer Mk2 : 1/73
Brazil aims for self-sufficiency in space : 1/99
What technologies await the future airliner ? 2/145
The all-digital helicopter – coming soon... 2/188
Airborne collision-avoidance systems – solutions in sight : 2/197
Editorial : Protectionism or competitiveness ? 3/221
The rush to the Far East : 3/239
European aircraft equipment industry, Part 1 : France – a country with total capability : 3/251
European fighters for the 1990s – recapturing the home market : 4/379
Airbus Industrie goes for capacity and range : 5/503
European aircraft equipment industry, Part 3 : Italy, Spain, Netherlands, Belgium, Switzerland and Greece : 5/527
Personnel training – from simulators to microcomputers : 6/657
Liberalism and public service – hesitation in French air transport : 7/725
Fighter power for the 1990s : 7/731
Brazil moves to make engines : 7/777
Editorial : A time for partnerships : 8/803
Editorial : The dangers of cheap oil : 9/935
South-East Asia's carriers ponder equipment needs : 9/993
Propfan – a victim of lower oil prices ? 10/1199
Editorial : The Long March : 11/1229
Mission simulators : 11/1295
Editorial : France sticks to its defence decisions : 12/1353
Navstar/GPS – suppliers swarm to a major market : 12/1397
Forming aircraft structural components – a slow revolution : 12/1429

Cook, Nick
European aircraft equipment industry, Part 2 : Great Britain : 4/359
The Fokker 100 in America – through the eyes of USAir : 12/1379
